THOMAS'

STREET AND AVENUE DIRECTORY

OF THE

CITY OF BUFFALO.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The numbers on the right and left hand corners have been given, so that a person wishing to find, say No. 495 MAIN STREET, on consulting the Street Directory, finds that the right hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.

BUFFALO FEMALE ACADEMY.

This institution is situated in the most eligible and delightful part of the city, and commands a beautiful view of the city, the river, and the lake. The grounds, consisting of a whole block, fronting on Delaware avenue and extending to a charming private park in the rear, are tastefully laid out and ornamented with trees and shrubbery.

The buildings, "The Cottage" and "Goodell Hall," combine all that is desirable in arrangement and convenience. The former is built of stone, and is exclusively occupied by the family of the principal, the young ladies entrusted to his care as boarders, and the teachers of the institution boarding with the principal. The latter, "Goodell Hall," has been expressly erected for academic instruction, and for spaciousness and convenience, may well challenge comparison with any similar establishment in the country. It has abundant accommodations for four hundred pupils. Rev. A. T. Chester, Principal.

A Home for Aged and Destitute Females was opened in 1858. For several years a house of moderate dimensions afforded sufficient accommodations for the inmates; but it having been determined in the spring of 1866 to open an Orphan Ward, and the number of destitute women claiming our hospitality being greatly on the increase, the building now occupied by the Foundation on Rhode Island street, near Niagara, was purchased.

LEGAL HOLIDAYS.

We publish by request the entire act estab-
 lishing Legal Holidays. It will be seen from
 this that when either of the holidays named
 occurs on a week day, the law treats them as
 Sundays for all purposes connected with the
 payment, acceptance, or protest of bills of ex-
 change and promissory notes. All notes ma-
 turing on such days therefore, must be paid
 the day before, or, if that is Sunday, the Sat-
 urday previous. But when these holidays fall

on Sunday, then the next day is also a legal holiday; but the law interposes in favor of the debtors, and allows payment of notes, &c., made after the 16th of March, 1865, to be deferred to the Tuesday succeeding. The following is the bill passed March 18, 1865, chap. 146.

The people of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The act entitled "An act to designate the holidays to be observed in the acceptance and payment of bills of exchange and promissory notes," passed April fourth, eighteen hundred and forty-nine, is hereby amended so as to read as follows:

§ 1. The following days, viz.: Any day appointed or recommended by the Governor of this State or the President of the United States, as a day of fast or thanksgiving, the fourth day of July, twenty-fifth day of December, commonly called Christmas day, the first day of January, commonly called New Year's day, and the twenty-second day of February, and when the said fourth day of July, twenty-fifth day of December, first day of January, or twenty-second day of February shall occur on Sunday, then the ensuing day thereto, shall, for all purposes whatsoever, as regards the presenting for payment or acceptance, and of the protesting and giving notice of the dishonor of bills of exchange, bank checks and promissory notes, made after the passage of this act, be treated and considered as the first day of the week, commonly called Sunday. And any bill of exchange, bank check or promissory note, made after the passage of this act, which but for this act would fall due and payable on any of the days herein mentioned, shall, when said day falls on Sunday, become payable on the Tuesday next succeeding such days.

§ 2. This act shall take effect on the first day of August next.

For and upon every can, bottle or other single package containing fish, sauces, syrups, prepared mustard, jams, or jellies, contained therein, and packed or sealed, made, prepared and sold, or offered for sale, or removed for consumption in the United States, on and after the first day of Oct., 1866, when such can, bottle or other single package, with its contents, shall not exceed two pounds in weight.....	1
For every additional pound or fractional part thereof	1

Cigar lights and playing cards in hands of manufacturers and dealers, should be stamped according to the rates fixed by the law now in force. The fact that they were manufactured prior to August 1, 1866, and are stamped in accordance with the law in force at the time of manufacture, does not relieve them from payment of the increased rates by affixing additional stamps.

No stamp tax is imposed upon any uncompounded medicinal drug or chemical, nor upon any medicine compounded according to the United States or other national pharmacopoeia, or of which the full and proper formula is published in any of the dispensaries now or hitherto in common use among physicians or apothecaries, or in any pharmaceutical journal now issued by any incorporated college of pharmacy, unless sold or offered for sale, or advertised under some other name, form or guise than that under which they are severally denominated and laid down in such pharmacopoeias, dispensaries or journals.

No stamp tax is imposed upon medicines sold to or for the use of any person, which may be mixed and compounded for said person according to the written recipe or prescription of a physician or surgeon. But all medicinal articles, whether simple or compounded by any rule, authority or formula, published or unpublished, which are put up in a style or manner similar to that of patent or proprietary medicines in general, or advertised in newspapers or by public handbills, for popular sale and use, as having any special proprietary claim to merit, or to any peculiar advantage in mode of preparation, quality, use or effect, whether such claim be real or pretended, are liable to the tax.

When proprietary stamps from a private dye are used, if they are so affixed to the boxes, bottles or packages that in opening the same, or in using the contents thereof, they shall and must be unavoidably and effectually destroyed, no cancellation is necessary; but if they cannot be so affixed, they should be cancelled in the ordinary manner by writing or imprinting thereon the initials and date. When general proprietary stamps are used, they must be cancelled by writing or imprinting

thereon the date and the initials of the party using or affixing them.

When proprietary medicines and preparations, perfumery, and cosmetics are stamped according to their retail price or value in the immediate vicinity of the place of manufacture, no additional stamps are necessary upon them, whatever may be the price at which they are offered.

Any person who offers or exposes for sale any of the articles named, whether they are imported or of foreign or domestic manufacture, is to be deemed the manufacturer thereof, and subject to all the duties, liabilities, and penalties imposed by law in regard to the sale of domestic articles without the use of proper stamp or stamps for denoting the tax paid thereon. The stamp tax upon such articles imported or of foreign manufacture, is in addition to the import duties; but when such imported articles, except playing cards, lucifer or friction matches, cigar lights, and wax tapers, are sold in the original or unbroken packages in which the bottles or enclosures were packed by the manufacturer, no penalty is incurred for want of the proper stamp. When the packages are opened, stamps should be affixed.

Violations of these stamp duties will be punished as the law directs.

Also, to RE-ISSUING Defective Patents, obtaining the EXTENSION of Patents granted previous to March 2, 1881, and to the prosecution of REJECTED APPLICATIONS.

In doubtful and REJECTED CASES the fees will be made to depend on success if preferred.

AWARDED TO

PRATT & WENTWORTH

BOSTON, MASS.

AT THE PARIS EXPOSITION, 1867, FOR THE

PEERLESS COOK STOVE

FOR COAL.

FOR WOOD.

It is "THE PEERLESS," because it is superior to all other Cooking Stoves in ECONOMY, SIMPLICITY, CLEANLINESS, BAKING, ROASTING, and BEAUTY.

1st. ECONOMY—A patented method of heating the air and conveying it through the oven, saves from TWENTY TO THIRTY PER CENT. OF FUEL.

2d. SIMPLICITY—It is easily managed. The fire can be perfectly controlled and kept through an entire season without re-kindling.

3d. CLEANLINESS—No dust escapes while shaking or dumping the grate.

4th. BAKING—Its large Oven, wherein all parts are of equal temperature, bakes as evenly as a brick oven, and that without turning the article. It bakes quickly.

5th. ROASTING—A current of hot air constantly passing through the Oven, so thoroughly ventilates it that it roasts as well as a Tin Kitchen.

6th. BEAUTY—Well moulded, artistically designed, and smoothly cast, it is the MOST BEAUTIFUL as well as the heaviest Stove in the market.

Each Stove is WARRANTED to be and to do all that is claimed for it.

The undersigned, engaged in the manufacture of FIRE HOSE, is prepared to furnish at reasonable notice, and moderate prices, an article of Hose for hand or steam machines, made from the best *Philadelphia Oak Tanned Leather*, superior to any heretofore manufactured in this State. He flatters himself that his long experience as Engineer of the Fire Department of the City of Buffalo, qualifies him to judge of the strength necessarily required for Fire Hose; and that his practical knowledge of tanning, eminently fits him to judge of the stock and mechanical skill necessary to produce the article required.

NOTICE TO THE TRADE

CONCERNING

JOHNSON'S BUFF TINTED COPYING PAPER

CHEAPEST AND BEST PAPER.

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled Jobbers and Dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using

JOHNSON'S BUFF TINTED COPYING PAPER,

and have gone so far as to state that in some instances our paper has been represented to be another article, made by other parties.

We have bestowed years of labor in bringing our paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying Paper or Books made by us, we shall protect you against any loss by reason of prosecution for infringement upon the pretended rights of any manufacturer.

Every one of our Copying Books has pasted on the front inside cover a label, reading "JOHNSON'S BUFF TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our paper, with directions for Copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "Johnson's Buff Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff Tinted Copying Paper is done up in packages of Two Reams each, with label on the outside of each package as follows: "Johnson's Buff Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the Trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.

TESTIMONIALS.

SHEFFIELD SCIENTIFIC SCHOOL.

ENGINEERING DEPARTMENT,
YALE COLLEGE, November 6, 1866.

I have always recommended the Faber polygrade lead pencils as the only pencils fitted for both ornamental and mathematical drawing; but after a thorough trial of the American Polygrade Lead Pencils manufactured by the AMERICAN LEAD PENCIL CO., N. Y. I find them superior to any pencil in use, even to the Faber or the English Cumberland lead pencil, being a superior pencil for sketching, ornamental and mechanical drawing, and all the ordinary uses of a lead pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencil hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans, that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

LOUIS BAIL,
Professor of Drawing, &c.

NEW HAVEN, January 11, 1867.

PROFESSOR BAIL, YALE COLLEGE.

Dear Sir:—I thank you for having called my attention to the pencils of the American Lead Pencil Co., N. Y. They are indeed excellent and upon comparison with those of Faber, which thus far I have used in my topographical labors exclusively, I find that they are really and substantially better.

These American Lead Pencils surpass the celebrated Faber's in fineness of grain, evenness and in the capacity to hold a sharp point. They cannot fail to be preferred by all our artists as soon as they are generally known, and the moderate price, for which they are sold, must secure to them in course of time the entire American market.

Very truly yours,

A. VON STEINWEHR,
late Brig. Gen. U. S. A.

A NEW COMMERCIAL WRITING FLUID OF A NEW VIOLET SHADE.

THIS WRITING FLUID HAS BEEN INTRODUCED ONLY TWO YEARS,

Since which time the Sale of it has been unprecedented for a New Ink.

THIS WRITING FLUID POSSESSES THE FOLLOWING SUPERIOR QUALITIES:

1. It is a *permanent* color, and is warranted *not to fade*; it has been thoroughly tested by both *heat and light*, and will stand either, as well as any Ink made.
2. It will not not corrode the pen in the least.
3. It is of that peculiar shade so pleasant to the eye, producing a full impression at once, as the color does not change like other fluids.
4. It flows beautifully.
5. Freezing does not injure it. As a School Ink, it is superior to any thing in the market, as it does not thicken up or corrode the pen, as all cheap inks do. It has already been quite extensively introduced into schools with the most satisfactory results.

This Fluid has become so popular with all who have tried it, that we feel confident it will become a general favorite when fully introduced.

It is put up in 2 oz. square flint glass fancy bottles, one dozen in a neat paper box, and packages of a half gross each. Also, in *School and Commercial Stands*, 3 and 4 dozen packed in a box; and in $\frac{1}{2}$ pints, pints and quarts, of one doz. each, all neatly labeled and securely boxed for shipping.

We also manufacture a

BRILLIANT RED INK,

SUPERIOR TO ANY RED OR CARMINE INK MADE,

Possessing the following advantages over any other Red Ink in market:

1. It is a more brilliant and enduring color.
2. Exposure to the air in open bottle or inkstand will not affect it in the least.
3. It will not corrode any steel pen.
4. It flows freely, and will copy.

This Red Ink, in connection with the Commercial Writing Fluid, both made from entirely new receipts, we now offer to the Trade with the full assurance that they possess merit, and will be appreciated. The Red Ink is put up in 1, 2 and 4 oz. flint glass square fancy bottles, with cork and *glass stoppers*, one dozen in a neat paper box, and packages of half a gross each—except the 4 oz., which is put up 4 doz. in a box.

Each bottle has upon the label, or blown into the bottle, *Union Ink Company*, which is our Trade Mark.

These Inks are manufactured and put up by the Union Paper Co., Springfield, Mass.

Our prices are lower than any first class inks in the country. Send for Price List.
